

● EXPEDITION ITINERARY · BAIKONUR COSMODROME · KAZAKHSTAN

Baikonur without the countdown — any month of the year

Three unhurried days on the cosmodrome: the Buran orbiter and the Energia stand in their hangar, Gagarin's Start, the museum and the closed town — none of the launch-day rush.

Your itinerary, day by day.

Day 1

Arrival and Check-in

We'll meet you, give you an initial orientation, and allow you some time to rest before the packed schedule begins.

Transfer

Check-in

15:00 Pickup at the airport or train station

We'll meet you at your arrival point. Once the group has gathered, we'll head to the city of Baikonur.

16:00 Transfer to the city of Baikonur

16:30 Passing Checkpoint No. 1, document inspection

17:00 Check-in at the hotel and initial orientation

After you check in at the hotel, our team will explain the rules for being within the city and at the Baikonur Cosmodrome. Since the cosmodrome is a restricted-access facility, there are rules that we must follow while on the premises.

10:10 Guided Museum Tour

11:10

Sightseeing Tour of Baikonur

The city, built from scratch in 1955 as a secret settlement and known for decades as "Leninsk," was renamed "Baikonur" in honor of a mining town located more than 300 km away—this was done specifically to conceal the spaceport's actual location.

12:00

A Visit to the Gagarin Gazebo

An elegant wrought-iron gazebo on the banks of the Syr Darya. According to local residents, it was here that the State Commission officially recognized Yuri Gagarin as the first person to fly into space.

15:00

Tour of the "Gagarin Launch Site"

It was from this launch site that humanity paved the way into space. On April 12, 1961, Yuri Alekseyevich Gagarin took off from Launch Pad No. 1 on a flight into Earth's orbit; the launch complex was later named in his honor.

16:00

Transfer to the "Buran" Hangar Assembly and Refueling Complex

16:15

Tour of the Assembly and Refueling Complex

This is where the two "Buran" space shuttles are located—a place many adventure seekers once longed to visit. Together with our guides, you'll gain completely legal access to the site and see the great legacy of the Soviet space program up close.

16:45

Transfer to the "Energia" Dynamic Testing Stand

16:55

Inspection of the "Energia" Launch Vehicle and the Space Launch Complex

Inside the dynamic test rig, the launch vehicle was subjected to various loads in order to identify critical parameters and improve the performance of this massive structure.
